1. USE ME FOR

Hey you! I'm LIZZY, the lice treatment lotion and together we are going to do this! The tube contains a natural lotion that effectively removes lice from the head. I also contain a lice comb to comb out the lice. I consist of natural essential oils. The flavor of my selected essential oils will keep the lice away. Moreover, my oils will have lice killing properties and repellent activity against head lice. I work on the basis of Dimethicone silicone preparation. I enclose the lice so they suffocate and get weak. Furthermore, I make the hair supple, anti-tangle and I'm gentle for hair and scalp.

2. HOW TO USE ME

Get the following items together before you start using me:

- A bath towel (preferably white to ensure you can see the lice easily);
- A tissue box or kitchen roll;
- Normal shampoo;
- Kidsner anti-lice lotion and anti-lice comb.

Step 1: Place the towel around the shoulders and apply the lotion to dry hair. Avoid contact with eyes.

Step 2: Start applying at the fold of the neck and apply the lotion from the scalp to the hair ends. Apply it especially on the back of the ears and folds of the neck where lice and nits can often be found.

Step 3: Massage the lotion thoroughly up to the scalp so that all of the hair is covered.

Step 4: Leave the lotion for at least 15 minutes.

Step 5: Comb out the hair lock by lock from the scalp to the end of the lock using the special anti-lice comb. Ensure that all hair is combed with the anti-lice comb. The nits can usually be found at the hair implant and, therefore, it is important that the comb's teeth are placed on the scalp.

Step 6: Clean the comb using kitchen roll paper or tissues regularly to see whether lice or nits appear on the paper.

Step 7: Rinse the hair thoroughly using water. Avoid contact with eyes.

Step 8: Wash hair with a normal shampoo if necessary until the hair does not feel greasy anymore. Rinse the hair.

Step 9: Clean the comb thoroughly after every check or treatment. Wash the comb in soapy water for 5 to 10 minutes. The comb can be disinfected by using alcohol if required. Place the used tissues or kitchen roll paper in a plastic bag, seal it and throw it away immediately.

Repeat the treatment after 7 days. This is necessary to ensure that the lifecycle of the lice is broken.

**Tip:**

Ensure that all family members who have head lice are treated at the same time.

△ 3. BE CAREFUL WITH ME

Do not use me when there is an existing oversensitivity to one or more of my ingredients. If allergic reactions occur, you must stop using me.

- Do not use me under the age of 4 years old;
- Avoid contact between me and your eyes;
- Rinse immediately using water when I come in contact with your eyes;
- I am only suitable for external use;
- Don't use me without your mom there;
- When using me, keep your hair away from naked flames and other sources of heat;
- Do not use me longer than 30 consecutive days.

4. MY INGREDIENTS

Aqua, Cetearyl Alcohol, Dimethicone, Coco-Caprylate, Octyldodecanol, Cetrimonium Chloride, Dipalmitoylethyl Hydroxyethylmonium Methosulfate, Sodium Cetearyl Sulfate, Dicaprylyl Ether, Lauryl Alcohol, Citric Acid, Acrylamidopropyltrimonium Chloride/ Acrylates Copolymer, Ceteareth-20, Sodium Benzoate, Prunus Amygdalus Dulcis Oil, 4-Terpineol, Potassium Sorbate, Rosmarinus Officinalis Leaf Oil, Mentha Piperita Oil, Eucalyptus Globulus Leaf Oil, Citral, Lavandula Hybrida Oil, Pelargonium Graveolens Oil, Linalool, Citronellol, Cymbopogon Schoenanthus Oil, Limonene, Geraniol, Isoeugenol.

5. HOW TO STORE ME

Store me in my original packaging and in a dry place at room temperature (15-25° C). My expiry date is printed on my outer box.
